

Community Relations

Our property assets form a pivotal link with their local communities, providing a catalyst for long- term economic benefits. We aim to enhance the quality of life in those communities and endeavour, where practical, to provide amenities in support of this objective.

Our policy is to:

- Work closely with local authorities and other stakeholders.
- Identify and respond to the needs of the local community when building new developments.
- Support relevant training and education initiatives.
- Provide support to local organisations and charities.
- Support local suppliers where appropriate.

This policy forms part of our overall policy on Corporate Responsibility. The Company strives continuously to improve its performance. Management systems and procedures are regularly reviewed to ensure that the Company maintains its commitment to this policy.
