

## Community Relations

Our property assets form a pivotal link with their local communities, providing a catalyst for long- term economic benefits. We aim to enhance the quality of life in those communities and endeavour, where practical, to provide amenities in support of this objective.

Our policy is to:

- Work closely with local authorities and other stakeholders.
- Identify and respond to the needs of the local community when building new developments.
- Support relevant training and education initiatives.
- Provide support to local organisations and charities.
- Support local suppliers where appropriate.

This policy forms part of our overall policy on Environmental, Sustainability & Community. The Company strives continuously to improve its performance. Management systems and procedures are regularly reviewed to ensure that the Company maintains its commitment to this policy.
